Youth Enhancement Scholarship

The San Bruno Community Services Department is proud to offer scholarship programs for children with little resources and who want to learn something new, meet new friends, and have a positive role model from a teacher or recreation leader. We believe that recreation strengthens safety and security, promotes health and wellness, and fosters human development. You could partner with us by helping to make San Bruno a better place for our children. Contribute to the Youth Enhancement Scholarship Program by giving any amount you wish when you register. Thank you for helping to make a difference in a child's life through recreation. If you are interested in receiving an application to receive a scholarship to participate in a recreation class or program, please call 650-616-7182 or e-mail dbrewer@sanbruno.ca.gov.

Jump Start Your Weight Loss

Yo-yo dieting is not the answer -- ever. It compromises your health and demoralizes your spirit. Only adopting a healthy eating style for life will provide you with good health and a consistent, healthy weight. You want to lose weight, but sometimes it's hard to make a long term commitment to a class or program. We'll help you get a great start to making a long term change. Other things you will learn in class:

- Successful weight loss is NOT about going hungry or feeling deprived!
- Learn how to make your meals more filling and satisfying with fewer calories.
- We will focus on nutrient-dense foods: foods high in nutrients and low in calories.
- Learn how to be in charge of the rate of your weight loss, by varying the calorie density of your foods according to your needs.
- This is not a diet. You are learning a new way to eat, permanently!

Living Without Headaches

Does Real Headache relief continue to be just beyond your reach? Do you suffer from Migraine Headaches, recurring Headaches, or Cluster Headaches? What Causes Headaches? Many people are asking that same question. What causes headaches can be a number of different things. A constant headache can be a real worry. Wondering what actually causes a headache presupposes that you are interested in treating the cause of different types of headaches rather than just swallowing pain medication. Scientists have yet to completely unravel the cause or causes of headaches. In reality, your chances of truly resolving your headaches are higher by eventually looking into core Migraine relief alternatives than just taking drugs. Dr. Simon Yu will teach you ways to live pain free of your headaches. He will show you how to enjoy a more pain free life. All ages.

Healthy Living to 100

One of the biggest factors that determines how well you age is not your genes but how well you live. Not convinced? Luck and genetics play roles in longevity, of course, but you can't control that. To hike your odds of hitting 100, focus on what you can do, like loading up on fruits and veggies (add five years), working out five days a week (add two to four years), and cutting down on stress (may add up to six years). Dr. Simon Yu will go over these topics and other helpful tips to Healthy Living to 100. All ages.

Preparing the Way For Your Child To Go To College

A college education is one of the greatest gifts you can give your child or grandchild. While the benefits are great, so too are the costs. And they continue to rise at a pace faster than inflation. In fact, according to the College Money, Annual College Cost Survey, 2005, if your child starts college in 2016, a four-year education can cost over \$146,000 for an in-state resident at a state college and over \$360,000 for an Ivy League college! You will explore the reality of college education costs and the potential for a negative impact on your retirement goals. We will touch upon several different options, even some commonly overlooked alternatives.
